

S2S Electronics Ltd

S2S Electronics have been established for over 30 years offering IT asset recovery and WEEE recycling services to business across the whole of the UK. S2S work with many business to recover IT assets for secure refurbishment and resale and to ensure any redundant equipment is sustainably recycled. S2S hold a high level of accreditation and we ensure a zero to landfill policy for all equipment processed. Part of the service offering is also secure destruction of electronic media. Please see www.s2s.uk.com for more details

S2S on ReGail

S2S are a partner on the project and as an Approved Authorised Treatment Facility for WEEE in UK, S2S are licensed to take and treat WEEE waste. S2S will be looking at different types of Gallium containing WEEE and then looking at different separation and treatment techniques to get the best output material for subsequent processing.
